Bottom lock with American cylinder

Serratura inferiore con cilindro americano

Floor lock for doors with 1/2" and 3/8" (8 to 12mm) glass thickness. Can be installed on both internal and external doors and can be combined with Colcom Biloba Unica hinges series and Maxima patch fittings series.

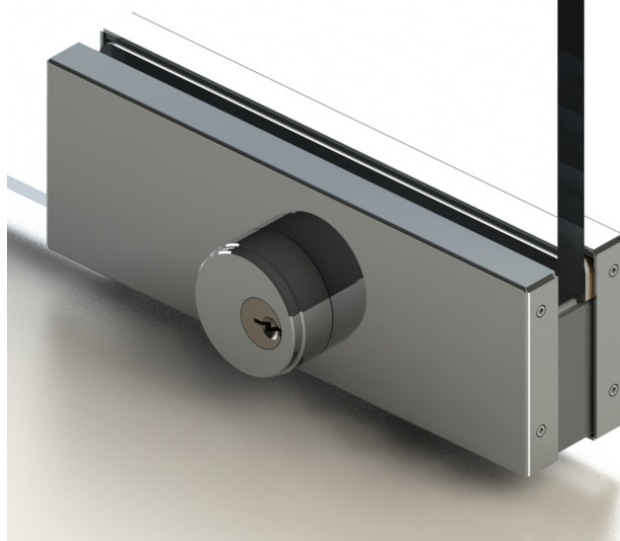

The round cylinder is the typical one used in North America and it's not included in the lock.*

The lock is small in its dimensions and the floor meeting point can be chosen from: a floor mounting plate or bushing with anti-dust closure.

Serratura a pavimento per porte in vetro di spessore 1/2" e 3/8" (8÷12mm). Si installa su porte interne ed esterne ed è abbinabile alle cerniere della serie Biloba Unica e alla serie Maxima di Colcom.

Il cilindro rotondo è il classico in uso nel mercato nord americano e non è incluso nella serratura.*

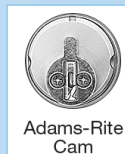

La serratura ha dimensioni ridotte e l'incontro a terra può essere scelto tra: piastrina a pavimento o boccola con chiusura antipolvere.
