SERRATURA E CERNIERE

Cerradura y bisagras
Lock and hinges
Schloss und Scharnieren

Colcom presenta un nuovo concetto di serratura progettato partendo dalle più esigenti richieste di mercato. Volevamo realizzare una serratura di dimensioni ridotte, dal minimalismo estetico e soprattutto funzionale, e la serie 641 è la risposta a questa sfida. La vera innovazione sta nel meccanismo interno "brevettato" che permette di essere ambidesta, silenziosa e robusta. Tre le versioni disponibili: chiave-chiave, chiave-pomolo, pomolo-libero/occupato. Colcom propone inoltre cerniera e controserratura in coordinato.

Serratura, controserratura e cerniera sono disponibili per lo spessore del vetro : 10 - 12 mm.

Colcom presenta un nuevo concepto de cerradura proyectado por petición del mercado. Hemos pensado sobre el problema de las dimensiones reducidas, de minimalismo estetico y lineal; serie 641 es la respuesta a este desafío. La novidad se encuentra en el mecanismo interior, con despacho, que permite de ser ambidextro, silenciosa y recia. Tres variantes: llave-llave, llave-pomo, pomo-ocupado/libre. Colcom presenta tambien bisagra y cerradero coordinadas. Bisagra y cerradura estan por vidrio de 10 - 12 mm.

Colcom presents a new concept of lock designed starting from the most demanding requests of the market. We wished to realize a lock of reduced dimensions, with an aesthetic and above all functional minimalism, and serie 641 is the answer to this challenge. The true innovation lies on the inner, "patented" mechanism, which allows to be ambidextrous, silent and strong. Three are the versions: key-key, key-knob and knob-free/engaged. Colcom also proposes coordinate hinge and lock keeper. Lock, lock keeper and hinge are available for glass thickness 10 - 12 mm.

Colcom stellt einen neuen Gedanke von Schloß vor, der nach den anspruchsvollsten Verlangen des Marktes geplant worden ist. Wir wollten ein Schloß von verringerten Maßen, mit ästhetischem und vor allem zweckmäßigem Minimalismus realisieren, und serie 641 ist die Antwort dieser Herausforderung. Die echte Innovation besteht aus dem inneren, „patentierten“ Mechanismus, das

erlaubt, beidhändig, geräuschlos und stark zu sein.

Drei sind die verfügbaren Versionen: Schlüssel-Schlüssel, Schlüssel-Knopf und Knopf-frei/besetzt.

Colcom legt auch koordiniertes Scharnier und zweites Schloß vor. Schloß, zweites Schloß und Scharnier sind für Glasdicke 10 - 12 mm verfügbar.
