B925 STANDARD

B925 STANDARD

BS40

- Binario Slak L = 2/3/5 mt.
- Vía "Slak" L = 2/3/5 mt.
- Slak rail L = 2/3/5 mt.
- Schiene Slak L = 2/3/5 mt.
- Rail Slak L = 2/3/5 m.

Il binario ha una foratura con passo standard. In caso di taglio potrebbe essere necessario eseguire una foratura ad hoc.

La vía tiene un agujeros de "paso" estándar. Cuando corte, deba ejecutar una perforación especial.

The rail has holes with standard spacing. In case of cut, it could be necessary to realize holes ad hoc.

Die Schiene hat Bohrung mit Standardstand. Im Fall von Schnitt könnte es notwendig sein, eine Bohrung ad hoc zu realisieren.

Le rail Slak dispose de trous dont les espaces sont standards. En cas de coupe, il sera peut être nécessaire d'effectuer de nouveaux trous.

Evitare di accorciare la barra in prossimità dei fori - No acorte la barra cerca de los agujeros. - Avoid to make the bar shorter near the holes - Die Schiene in der Nähe der Bohrungen nicht abkürzen - Éviter de raccourcir la barre à proximité des trous
